

SAFIRA

TECNOLOGIAS DE INFORMAÇÃO

CLOUD SOLUTIONS

To leverage all the potential of the Cloud Computing concept to its customer's business, SAFIRA offers customized development based on Windows Azure and SQL Azure, as well as Microsoft Office 365, that includes the main productivity tools from Microsoft in a 'Software+Services' model and the migration and consulting services from SAFIRA that accelerate the adoption or transition to the Cloud Computing World. Start saving today!

Microsoft Office 365 takes the industry's most recognized set of productivity and collaboration tools and delivers them as a subscription service. With cloud services, your organization can lower overall costs and deliver the right set of tools for the right users, all with appropriate layers of security and compliance. The suite includes:

- > **Microsoft Office Professional Plus:** A version of Microsoft Office supported by cloud-connected services.
- > **Microsoft Exchange Online:** Email, calendar and contacts.
- > **Microsoft Share Point Online:** Central place to share documents and information with colleagues and customers.
- > **Microsoft Lync Online:** Instant messaging, audio/video calling, and rich online meetings.
- > **Microsoft Office Web Apps:** Access, view, and edit documents directly from a web browser.

All of this is supported by SAFIRA's added-value services such as configuration, implementation, migration and customized solutions development.

Windows Azure™ is a cloud services operating system that serves as the development, service hosting and service management environment for the Windows Azure platform. Windows Azure provides developers with on-demand compute and storage to host, scale, and manage web applications on the internet through Microsoft® datacenters.

The benefits are clear:

- > **Agility:** Take advantage of development tools, automated service management and global datacenter presence to respond faster to customer needs, focus on your competitive differentiators, and reach new markets.
- > **Efficiency:** Windows Azure improves productivity and increases operational efficiency by lowering up-front capital costs. Customers and partners can realize a reduction in Total Cost of Operations of some workloads by up to 30 – 40% over a 3 year period.
- > **Focus:** Focus on delivering services and value to your customers – and not on managing technology infrastructure. Windows Azure enables you to spend less time on operational hurdles and more time focusing on your competitive differentiators.
- > **Simplicity:** Utilize your existing skills in familiar languages such as .NET, Java and PHP to create and manage web applications and services.
- > **Trustworthy:** Enterprise class service backed by a reliable service level agreements and a rich online services experience.

ABOUT SAFIRA

SAFIRA develops solutions and provides IT services to leading companies in the national and international market. We provide engineering services to advise, audit, architect, conceive and manage IT systems that support the companies' business. Founded in 1997, SAFIRA has more than 50 active customers and a team of 120 highly qualified professionals.

CUSTOMER EXPERIENCES

"With the switch from Lotus Notes to Microsoft Online Services, we improved e-mail uptime from 89 to 99.9 percent. Our employees are assured that their e-mail will always be there."

Bob Prezkop, CIO, Intertec Consulting

"One of our main reasons for choosing Microsoft Dynamics CRM [Online] was the fact that the Outlook integration was so tight. That's helped to drive a 100% user adoption rate."

Marc Chester, VP, Business Development, Data Reduction Systems

SAFIRA is a Microsoft Gold Certified Partner and belongs to the Top3 of the portuguese teams with more Microsoft certifications. In addition, SAFIRA Maestro, SAFIRA OFX Server and SAFIRA Quartz are certified by Microsoft, integrating its oficial list of compatible software.
